

REVERSE LIGHT SWITCH KIT

T2 BAY 1967-1971, 1972-1979

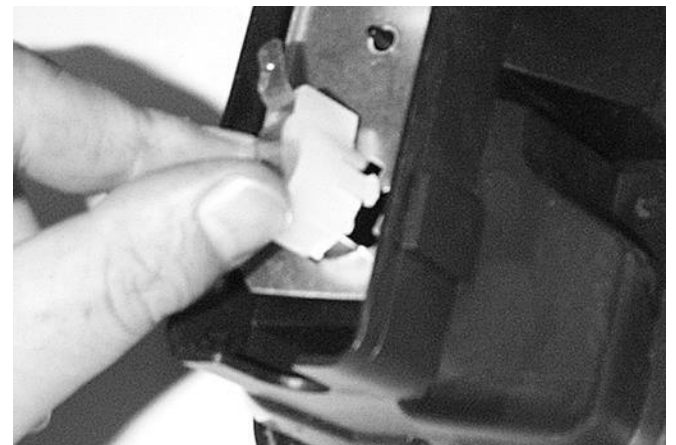

JK Part Numbers: J11647, J10511

FITTING GUIDE - T2 Bay 1972-1979

1. Towards the front of the gearbox on the nearside you will find a threaded blanking plug. Using a large allen key, unscrew the plug and remove it. Screw in the reverse light sender and top up any lost gearbox oil.

2. Fit the bulb holders into the holes in your rear light clusters from the rear of the unit. Remove the rear light lenses, fit the bulbs and replace the lenses.

3. Run a wire from one of the terminals on the sender to the positive terminal on your coil via the in-line fuse. Run a wire from the other terminal on the sender to the terminals on the back of the bulb holders.

N.B. Whilst every attempt is made to ensure that these instructions are as accurate and clear as possible, we cannot be held responsible for misinterpretation of these instructions or for any subsequent accident or damage caused through mis-fitted parts.
